I mean if we can build something that would re-size like Figma designs too man we'd make so much money. Look at all this shit that needs resizing for one ad

A screenshot of a WhatsApp chat conversation with a contact named Scott. The chat interface is shown on a mobile device, with a contact list on the left and a status bar at the top. The chat history includes a message from Scott asking for a name and photo, followed by a link to a Google Doc. Scott then apologizes for being busy and mentions expanding a project. The user responds with excitement, saying they can't wait and that the project would be great. Scott then shares a mathematical formula and mentions being in the research phase. The user responds with praise for Scott's speed. The chat ends with Scott mentioning a draft pitch deck and the user sending three 'You unsent a message' notifications. The contact list on the left includes contacts with initials JT, M, SL (highlighted), RB, and A. The status bar at the top shows the time as 11:33 AM and the battery level at 100%.

Yes id like to catchup! Im not trying to be difficult--just having the data, the information, as the source of truth is better than discussing at this point because we discussed a lot, & then i have to transcribe, so that becomes another task for me! & im sure you have enough data to start already--just organize, compile into separate folders, ill take it from there, & then post first drafts we can talk about the projects specifically

If that makes sense! :)

Yesterday 11:46 PM

Yes!! Just want to know which one to focus on first so I don't start us the wrong way cause I think the water stuff will go so quick with your knowledge and I'm in a much better place financially so can pay you for your help too (what I can now & then it will all come back to you eventually I'll make sure of it!) cause I really do appreciate it!!! I've also been working on being specific/concise when I speak & I've had to delegate & assign a lot for my aunt so am much better at putting it into words and then getting you what you need!! Appreciate you lots(:

Today 11:47 AM

Hey! Do you have that file/doc namer that we made for my aunt? I couldn't get it to work the last time I pulled it up but if you can make me one that functions quick I can send you 20!?

Novel Funnel Strategies

chatgpt.com

This is business funnel and instagram grid layout / breakdown - does this work or should I down load or put them all in a folder or something?

Also had my sovereign systems pillars & framework!!

yeah, you can send links to whatever you have in chats here!

Delivered

It's perfect for starting / has everything I want for my spiral/landing page & just pillars of everything - so would be so cool to see what you come up with from that because it the complete backbone of what I want to get set up!! and then we can focus on the first pillar cause it branches off to the water stuff (which I think ai will be so helpful with and then can just film when

It's perfect for starting / has everything I want for my spiral/landing page & just pillars of everything - so would be so cool to see what you come up with from that because it the complete backbone of what I want to get set up!! and then we can focus on the first pillar cause it branches off to the water stuff (which I think ai will be so helpful with and then can just film when/what it tells me) because the water stuff is essentially just a mini version of this I just have to pull and plug the appropriate info after it's all roughly set up/ laid out!!!

Does that make sense!?

Can call whenever too! I have a call in an hour & am free til then and then should be free after too!!

Today 2:54 PM

Oooo okay!!!! Here is stuff for first / water part !!!

"Yes—this is the *right* refinement. The documentary should absolutely live front and center on the landing page. That's your emotional hook + differentiation.

I rebuilt your entire system cleanly with that as the anchor, and then added:...

Edited

I think that should cover it all - unless you need the backend / transcript behind me & chat talking it out & setting it up too??

Today 4:14 PM

Sorry to throw so much at you!! I hope you're having a good morning and no stress from me(: j am excited this really would condense my timeline down immensely & have a marketing plan in action already so just feels so serendipitous & perfectly aligned. ugh j appreciate yous !!!!
