

Maddie >

will send you an email with a calendar link and a brief agenda of what's to be covered & how long the call should be!

ill say very personally, my family curse is we avoid conflict until suddenly a throat is getting slit over a tipping point moment triggered by nothing out of the ordinary—so i have trouble w words of conflict—I do need to evolve that bc i just run & shut down & avoid or im/explode! then parallel, when im being me, i like to talk archaically & be silly & puns & jokes, & criticism is around there as well—I'm a person prone to rubbing all the wrong way lol

but! the hope is the thing itself, the creation—that is all that needs saying

it can heal the character flaws bc the product does what a human cant & that's be perfect (ideally)

Edited

have a good work day—send notes when you can, chat later!

Perfect is hoo-eyahaha, our l'm/perfection's are what make us - US & there is a 1 in 144trillion chance of you being you. So there is a reason & everything that makes you "rub all the wrong ways" & that's because 1. Going with the grain is so last century in these broken ass systems today - & 2!!! the other black sheep, ones that feel the same and are your tribe will find you the more you be you & then you j make your own grain & nothing feels off or wrong anymore (because it's not - it's all divinely designed)

Also ferried of conflict & had terrible childhood experiences / people that caused it so l'm working really hard on saying the thing & making myself heard especially when I don't want too, so it means a lot you listened and you didn't run away. so I think

Also ferried of conflict & had terrible childhood experiences / people that caused it so I'm working really hard on saying the thing & making myself heard especially when I don't want too, so it means a lot you listened and you didn't run away, so I think good on us both there 🙏

have a good work day—send notes when you can, chat later!

👉 you as well!!

Monday 5:12 PM

Can I just pull links to chat threads with little summary's about what it is or do you want me to go through and copy all important parts into google doc?

👍

if you export them & send files that is good to

I found spiral code YAHOOOO!! And have gone through damn near everything just have about half of my chats to go through (all organized in folders so won't take two long) need to switch gears soon so can get you everything by tomorrow!?!

Can I export them individually?

this is a 2 click process per thread

YAY thank u

💖

& youll get a nice little document w headings & sucj

Okay yay so excited ty ty !!!!

sovereign-systems--elevate-align--operating-board • organvm-iii-ergon

github.com

here is the project board

it will get filled up w more details eventually

Okay yay awesome - everything I've gathered will help too I think! Just have to finish the how I want it to look part & then finish pulling chats & then will send everything over !! thank you!!!!!!

Yesterday 4:17 PM

AHHH okay i did it!! Just have to put everything into order in the google folder and then will send over to you!! (I didn't do the instagram / post specifics yet but I think it's a very very good starting point and then can add in more detail as we go!!)

Send & will summon the light (& dark) arts

Okay I just emailed it over and got a few more added in!!

Google Drive: Sign-in  
drive.google.com

Hopefully that still pulls you too - idk I made a shared drive & can find a link to share - if there's a better way to do it just let me know!!

Gemini - Interactive 3D Helix Plot (V5 - Rich Content Modal) [FIXED]  
g.co

And here is spiral I think I added the code in one of the first two docs but not sure so will send here just in case too!

Gemini

Gemini - Interactive 3D Helix Plot (V5 - Rich Content Modal) [FIXED]

g.co

And here is spiral I think I added the code in one of the first two docs but not sure so will send here just in case too!

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport"
content="width=device-width,
initial-scale=1.0">
  <title>Interactive 3D Helix Pl... >
```

And then I think it should be very very very close !!!! Will just have to go into tweak things/add more info & some videos then make sure it's all pretty and ready to go but even right now it's functionalble and I've showed the v1 first draft to two people and they love it & can follow!! I'm so excited!!

Yesterday 7:03 PM

Is that a good overview or should I summarize it all kinda in voice note? THANK YOU!!!

when i sort i will ping anything i cant get access to!

i will absorb, atomize, & fill the project board w this intake—I will let you know when i've made progress\

Delivered

No rush/pressure! Thank you lots!!(:
